Product Description

Key features
Increased sensitivity to visualize temperature differences.
More easily visualize and diagnose problems with onscreen images, multiple rectangular markers, and 9 color palettes.
More intuitive visual interface with an enhanced touchscreen interface that has been tested by actual users.
Greater flexibility to visualize targets with interchangeable tiny-to-large smart lenses—no calibration required; 2x and 4x telephoto, wide-angle, and macro lens compatibility.
Capture clear, accurate images focused across the entire field of view with MultiSharp™.
Instantly focus on your desired target. LaserSharp® Auto Focus uses a built-in laser distance meter to calculate and display the distance to the target.
Get 4x pixel data with SuperResolution, which captures multiple images and combines them to create a 1280 x 960 image.
Save time—wirelessly sync images directly from your camera to the Fluke Connect® system and add them to asset records or work orders.
Reduce the need to take notes in the field with IR-PhotoNotes™ and voice annotations.
