### Product Details

Brand: <b>NORD-LOCK</b>	Material standard: <b>EN 1.7225 or equivalent</b>
Material: <b>Steel</b>	Lubrication: <b>Dry film lubricant/lubricating paste</b>
Part number: <b>NLX10</b>	Corrosion resistance : <b>Minimum 1,000 hours in salt spray test (according to ISO9227)</b>
Applications: <b>General steel applications</b>	Bolt grades: <b>8.8 and 10.9</b>
Article No.: <b>2375</b>	Temperature range: <b>-40degC to 150degC *Temperature recommendations based on information from the raw material supplier. Locking function not affected within the specification.</b>
Bolt size (Metric): <b>M10</b>	Pairs per pack: <b>200</b>
Inner dia. d (mm): <b>10.5</b>	Harmonization Code: <b>7318210090</b>
Outer dia. D (mm): <b>16.6</b>	Country of Origin: <b>Sweden</b>
T(mm): <b>2.8</b>	

### Product Description

NORD LOCK Wedge Locking Washers / Nordlock evenly distributes head pressure on the surface without damage. They also help ensure that the binder is pressed on a smooth surface to reduce the chance of loosening over time. The washer key bites on the top of the binder and Material: to prevent loosening. Wave washers have irregular shapes that are resistant to loosening and distributing pressure on low-strength binders. Our distribution channels are available in Indonesia, Bekasi and Surabaya.
