

FLUKE Loop Calibrator

Item **32FIK13127** Mfr. Model **FLUKE-707/APAC**

Product Details

Brand: FLUKE	Width (in): 3.00
Part number: 6097742	Height (in): 2.15
Weight (lb): 0.77	Country of Origin: US
Length (in): 6.25	

Product Description

Key features

One-handed handheld tool for loop checks. Just click to calibrate.

This feature-rich solution combines the best push-button and knob features of loop calibrators and offers:

Large, simple display and quick-click interface for comfortable one-handed operation.

Simultaneous mA and % readout for fast and easy interpretation.

0.015% mA accuracy, better than other loop calibrators in this price range.

1 μ A resolution for mA sourcing, simulation, and measurement.

25% step push-buttons for quick and easy linearity checks.

0-100% "span check" for quick zero and span checks.

Selectable slow ramp and fast ramp to provide smooth outputs for valve slewing and loop function testing.

Internal 24 V loop supply, so you can power and read a transmitter without carrying a DMM.

Measures V dc up to 28 V.

Single 9 V battery, easy to replace without breaking the calibration seal.

0 - 20 mA or 4 - 20 mA default start-up modes.

Innovative output adjustment with 1 μ A and 100 μ A resolution.

HART™ mode inserts a 250 Ω resistor in series with the 24 V loop for compatibility with HART communicators.
